Address

Kungälv, Sweden

Expertise

- UI/UX fundamentals
- Full-Stack Web Development
- Frontend: HTML, CSS, JavaScript
- Backend: Python
- Programming: Python, C++, JavaScript
- Databases: SQL
- Cisco CCNA 1 Certification (Introduction to Networks)
- Basic systems and network understanding
- Operating Systems: Windows, macOS
- Documentation and problem analysis

Languages

- English - Fluent
- Swedish - Fluent
- Somali - Native

Projects

- Bash UF
- Hotel Booking System

Profile

I am a Junior Full-Stack Web Developer with hands-on experience building web applications through self-initiated projects. I work across both frontend and backend, focusing on creating structured, functional, and user-oriented solutions. I have a strong technical foundation from my studies in Data and Network Engineering and I am seeking an internship or junior role where I can further develop my full-stack skills in a professional environment.

Experience

Self-Initiated Full-Stack Development Projects

Full-Stack Web Developer

- Designed and developed web applications independently from concept to implementation
- Built frontend interfaces using HTML, CSS, and JavaScript
- Implemented backend logic and data handling using Python
- Worked with SQL databases for data storage, queries, and basic database design
- Focused on application structure, user flow, and functionality
- Used problem-solving and system-oriented thinking to build complete solutions

Education

2024 – ongoing)

University West
(Trollhättan)

Data and Network
Engineering (Year 2)

2021-2024

Amerikanska
Gymnasiet
(Gothenburg)
